HealthLink has expanded their line of Monsels Solutions.

Cost-effective MHV

(appr. 10+ uses per 1 oz container)

You asked for it...  
We did it!

Cat # 400444 - MHV™

HL Flyer 9039  
R 05/10/10

# MONSEL'S HIGH VISCOSITY

## Ours:

- HealthLink's 400444 is a one ounce multi dose vial (MDV)
- 10+ uses per vial
- No swabs, just the bottle

## Others:

- Others are packed 12 single dose vials (SDV) in a box with swabs

## Opportunity:

- Sell MHV to your OB/Gyn's who are pouring Monsel's Solution in a cup and waiting for it to thicken

## Benefit:

- Eliminates the hassle and potential risk associated with making the thickened product in their office, then using it on patients. (It's called off-label use).
